 - Uses Web 2.0 technologies (Virtual world)
 - Creates user group in virtual meeting setting
 - Alternative or supplement to using CA website, Webcasts and onsite meetings

CA Executive Summaries

George Fischer, EVP Global Sales

- CA World introducing 7 - 8 new products
- Mainframe Value Program (MVP)
 - Deep dive mainframe tools; features; training

Al Nugent, EVP & CTO Strategic Plan

“Design for change, don’t change the design”

- Talk to customers, rely on communities, understand your portfolio, know where you’re going
- Product group / market trends
 - Architecture: provide content on demand, manage cyber threats, show corporate responsibility - become economically prudent (i.e., GREEN)
 - Governance: continue business mgmt principles and policies on risk and compliance
 - Change: partner w/end-user to hide technology (too visible today); rely more on automation / fewer products; enable environment to take care of itself - services oriented architecture

CA Executive Summaries

Denise Asplund, VP Technical Information

- **Product documentation mission: Useful, accurate technical information to maximize ROI**
- **Enhancements based on customer feedback!**
 - Invite to PLC / UG meetings

Endevor PLC / Product Team Exchange

General Information:

- **Electronic version of R12SP2 will be posted at support online soon**
- **Next (full) release of Endevor availability estimated @ 2011 - 2012 timeframe**
- **Version 1 of R12 (incremental release 12.1) availability sooner**
- **R12 Exit problem: Exchange server modifying email address (DAR created and accepted)**
- **Request to correct processor group output type / duplicate element check at subsystem level**

Endevor PLC / Product Team Exchange

Endevor for DB2 Product Update:

- **New Product Name: CA Endevor SCM Interface r11.5 for DB2 for z/OS**
- **From R11.5 cover letter: “Only the DB2 related components of the product are contained in the updated release. If you utilize the other parts of the former Endevor for DB2 product, you can continue to run both the 4.0 release and the new r11.5 release to utilize the full functionality of the product.”**
- **RC Migrator / RC Compare products under the covers**
- **Release tape comes with all 20 CA DB2 products; license key limits installation**
- **Current release = 11.5 (Support for DB2 V7 + V8)**
- **For additional details see the Release Notes document for the CA Database Management Solutions r11.5 SP2 for DB2 for z/OS at: <https://support.ca.com/irj/portal/DocumentationResults?productID=131597&releaseID=R11.5&languageID=ENU&actionID=2>**

Endevor PLC / Product Team Exchange

CMEW R12 Update:

- **Many sites report problems with installation; guide is too long and complicated**
- **Beta testers needed January 2009**

DAR Process Update:

- **Issues with Support Online submission (auto emails stating DAR was refused) - John researching**
- **Continue to submit requests via Support Online; John will respond with accept / reject email**
- **User group voting will occur prior to CA finalizing design for next release**
