

For your z/OS Production systems, are any classes active for STATISTICS in SETROPTS?

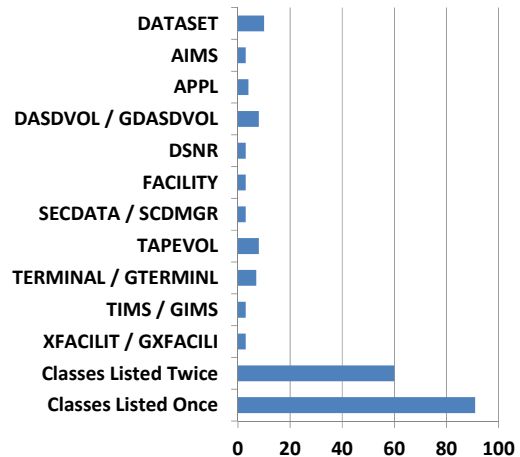

Responses	Count	Percent %
None	14	58.3%
One or more classes		
• Min 2		
• Max 128	10	41.7%
• Median 6		
• Mean 13		
Total	24	100%

What classes are active for STATISTICS?

Responses	Count	Percent %
DATASET	10	100.0%
AIMS	3	20.0%
APPL	4	30.0%
DASDVOL / GDASDVOL	8	80.0%
DSNR	3	30.0%
FACILITY	3	30.0%
SECDATA / SCDMGR	3	30.0%
TAPEVOL	8	80.0%
TERMINAL / GTERMINL	7	70.0%
TIMS / GIMS	3	30.0%
XFACILIT / GXFACILI	3	30.0%
Classes Listed Twice	60	20.0%
Classes Listed Once	91	10.0%
Responses	10	

Comment: Most classes reported are RACLIST required, RACLISTed by an application, or likely to be RACLISTed.

Do you use the statistics, and if so, when and for what purposes?

Responses	Count	Percent %
Do not use	6	60.0%
Use:		
• We use them if we need to go into SMF records to see who did something.		
• Audit Questions		
• Prior to zSecure's Access Monitor, used to help determine if a profile was still in use for cleanup purposes.	4	40.0%
• I occasionally look at the statistics but it's not on a regular basis.		
Responses	10	100%
