

To what extent do you use RACF's ISPF panels for administering RACF? (These are RACF's own panels and not those of a RACF administration add-on product.)

Responses	Count	Percent %
Never	17	32.7%
Rarely	11	21.2%
Moderately	14	26.9%
Often	9	17.3%
Exclusively	1	1.9%
Total	52	100%

For those of you who use RACF's ISPF panels rarely or moderately, what tasks do you use the panels for?

Responses	Count	Percent %
List profiles	11	45.8%
List SETROPTS options	15	62.5%
Create and administer Digital Certificates	7	29.2%
Other (see below)	7	29.2%
Responses	24	

Other:

- Setting/resetting passwords and phrases for service accounts
- Corrections to profiles
- Connect and remove ID's from groups and display the groups after the action.
- List and search profile ; in primis for DATASET where zSecure doesn't interpret ICHNCV00 rules
- Add/update profiles (rarely)
- Revoke users on a specific date
